Aşağıda verilen sınıf tanımlamalarına göre verilen ifadeleri "hatasız", "derleme zamanı" veya "çalışma zamanı" hatası olacak şekilde 3 etiketle işaretleyiniz. Eğer ifade hatalı ise bu hatanın ne olduğunu ve nedenini yazınız.

```
public class Person {
        public void birth(){}

        public void takeHoliday(){}
}

public class GradStudent extends
        Student {

        public void writeThesis(){}
}
```

```
public class Student extends Person {
    public void takeExam(){}

    public void takeHoliday(){}
}

public class Lecturer extends Person {
    public void teach(){}
}
```

(a) Person person = **new** Student(); person.takeExam();

- (c) Student student = new Student(); Student g= (GradStudent)student;
- (d) Person person = **new** Student();

 $\ \, \text{Lecturer lecturer } = (\text{Lecturer}) \text{person}; \\$

- (e) GradStudent student = new GradStudent();GradStudent grads = (Student)student;
- (f) Person person = \mathbf{new} Lecturer(); person.teach();

```
public class Vehicle {
    public void m1() {
        System.out.println("Vehicle = 1");
    }
}
class Car extends Vehicle {
    public void m1() {
        System.out.println("Car=1=");
    }

    public void m3() {
        System.out.print("Car=3=");
        super.m1();
}
```

```
class SportsCar extends Car {
    public void m2() {
        System.out.println("SportsCar_2");
     }
}
